

**IASLC**

International Association for the Study of Lung Cancer

**ANNOUNCEMENT**

**IASLC Lung Cancer Fellowship Award  
2 years duration**

**IASLC Young Investigators Award  
2 years duration**

**IASLC/PCF Prevent Cancer Foundation Fellowship Award  
2 years duration**

The IASLC is proud to announce the annual IASLC Fellowship and Young Investigators Programs.

Overall, there are 3 or more awards for two years each and at least one applicant from each region (North America, Europe and Rest of the World) will be funded. There are awards in prevention and translational lung cancer research that are jointly sponsored with the Prevent Cancer Foundation, (PCF), through educational grants from Eli Lilly. There are unrestricted awards in any field of lung cancer research supported by educational grants from Amgen, Genentech, OSI, Eli Lilly, the IASLC and other sponsors.

This year at least 3 new unrestricted awards of \$40,000 each year for 2 years are available for competition.

We are now requesting application for these Fellowships and Young Investigator awards to be awarded in 2011 - 2012. The goal is to reward scientific excellence and to encourage innovative investigations in the field of lung cancer prevention research and translational research with a potential impact on the management of lung cancer. The applications will be evaluated by a Scientific Review Panel; the deadline for submission of the application is **January 10, 2011**. A decision on applications will be reached by March 2010.

Application forms can be found at the website: [www.iaslc.org](http://www.iaslc.org)

Please e-mail your application to: [pia.Hirsch@ucdenver.edu](mailto:pia.Hirsch@ucdenver.edu) latest January 10, 2011.
