

Taking Care of Caregivers

Are you a caregiver, or do you know someone who is?

GO2 Foundation for Lung Cancer, through its Lung Cancer Registry, has a new survey that focuses on the experiences and mental health of caregivers.

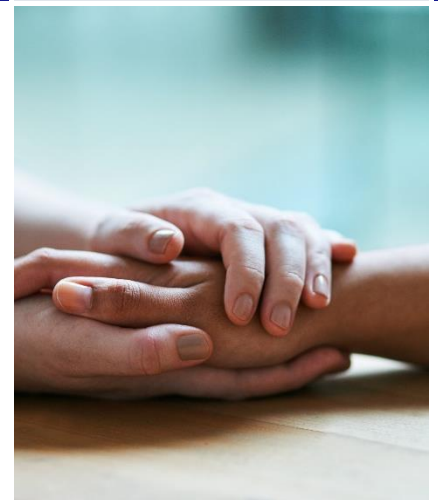

We need to hear from you! Help researchers gain better understanding of co-survivorship experiences. **Join the Lung Cancer Registry today and tell us about your experience.** The survey is composed of approximately 20 questions and is available in English, Spanish, German, French, and simplified Chinese. It's quick and easy to sign-up.

The information collected will directly guide caregiver support programs and resource development. The more you share, the more we can provide support and gain understanding of the caregiver experience.
