and Pediatric Oncology
Dr. Ranjani Chakravarthy, MD
Medical Director, American Institute of
Pathology and Laboratory Sciences (AmPath)
Dr. Mirza Athar Ali, MD
Consultant Radiation Oncologist,
American Oncology Institute

American Oncology
Cancer Congress - 2014
Best of World Conference on Lung Cancer

8th March, Trident Hotel, Madhapur, Hyderabad

www.americanoncology.com
Dear Colleague,

As part of American Oncology Institute's commitment to advance healthcare frontiers in India, for the 2014 edition of our Cancer Congress we have organized national and international thought leaders on prevention, diagnosis and treatment of lung cancer for a program that includes didactic sessions, as well as discourse between faculty and physician attendees. Held in partnership with the Indian Cooperative Oncology Network (ICON) and Indian Society of Medical and Pediatric Oncology (ISMPO), the program features content from 'The Best of the World Conference on Lung Cancer'. We cordially invite you to join us and other members of the Indian medical fraternity at this year's continuing medical education event.

The Best of WCLC is an educational initiative of the International Association for the Study of Lung Cancer (IASLC) designed to engage researchers and practitioners unable to attend the World Conference on Lung Cancer. The program condenses the timeliest scientific and educational topics from multiple disciplines into a single-day event. Presented by regional teams recruited from a spectrum of specialties, the event covers the top abstracts from the previous year as chosen by the experts on the WCLC Scientific Committee. Delegations from the Americas, Asia and Europe will host events from the series around the globe.

**PROGRAM SCHEDULE**
